

#### Overview

Southwest Antennas Part # 1001-061 is a omni-directional half wave dipole antenna that operates from 340 - 470 MHz and features 2 dBi of peak gain across the operational frequency range of the antenna. The integrated rugged spring base allows the antenna to bend and flex with impacts and return to its original vertical operating position, helping to prevent damage to the mated RF connector and attached radio.

The antenna's flat black finish and black chrome Type-N(m) RF connector allows this antenna to be deployed for low visibility operations.

### Features:

- Broad Band Coverage
- 340 470 MHz
- 2 dBi Omni Radiation Pattern
- Rugged Construction
- Low-Glare Black Radome
- Black Chrome Type-N(m) RF Connector
- Heavy Duty Spring Base

| Parameter                 | Value          | Units       | Tolerance    |
|---------------------------|----------------|-------------|--------------|
| Frequency Band            | UHF            |             |              |
| Impedance                 | 50             | Ohms        |              |
| Minimum Frequency         | 0.34 / 340     | GHz / MHz   |              |
| Maximum Frequency         | 0.47 / 470     | GHz / MHz   |              |
| Frequency Bandwidth       | 0.13 / 130     | GHz / MHz   |              |
| Maximum VSWR              | 2:1            | Ratio       |              |
| Maximum Gain              | 2              | dBi         |              |
| Polarization              | Vertical       |             |              |
| Maximum RF Input Power    | 50             | Watts       |              |
| Horizontal (AZ) Beamwidth | 360            | Degrees     |              |
| Vertical (EL) Beamwidth   | 80             | Degrees     |              |
| Ground Plane Required     | No             |             |              |
| Color                     | Black          |             |              |
| Spring or Gooseneck       | Spring         |             |              |
| Spring Length             | 0.75 / 19.05   | inches / mm |              |
| Spring Diameter           | 0.75 / 19.05   | inches / mm |              |
| Maximum Wind Velocity     | 62 / 100       | mph / kph   |              |
| RF Connector Type         | Type-N(m)      |             |              |
| RF Connector Features     | Black Chrome   |             |              |
| Product Height            | 21.70 / 551.18 | inches / mm | ±.13"        |
| Product Diameter          | 0.81 / 20.62   | inches / mm | +.020" /000" |
